

Introduction to

# Dimension Mobile

EGAN

## Monolithic Mobile

Dimension Mobile shares the design appeal of the market-leading Dimension Stele and utilizes the unique Egan Boxcore industrial design for a high degree of stability when moving and when writing. With an EVS surface, an ultra-thin bezel, and a powdercoated white aluminum frame in 1 1/8" (29mm) depth, Dimension Mobile has a sleek, monolithic appearance with only a small visible seam at its borders. Base secures to body frame using Torx bolts, designed for high seated strength and an attractive flush appearance.

Thanks to the low-profile base and Torx bolts, multiple units of Dimension Mobile can be nested successfully when not in use. To complement Presentation Board installations, specify a Clear Anodized aluminum frame at no charge. Optionally specify Custom Color frame and base. EganINK bespoke graphics are also available.

Dimension Mobile is available in standard heights of 54", 60", 66", or 72" and standard width of 36" or 48".
