

Dimension Mobile

Dimension Mobile shares the design appeal of the market-leading Dimension Stele™ and utilizes the unique Egan Boxcore™ industrial design for a high degree of stability when moving and when writing. With an EVS™ surface, an ultra-thin bezel, and a powdercoated white aluminum frame in 1 1/8" (29mm) depth, Dimension Mobile has a sleek, monolithic appearance with only a small visible seam at its borders. Base secures to body frame using Torx® bolts, designed for high seated strength and an attractive flush appearance.

Thanks to the low-profile base and Torx bolts, multiple units of Dimension Mobile can be nested successfully when not in use. To complement Presentation Board installations, specify a Clear Anodized (CA) aluminum frame at no charge. Optionally specify Custom Color (CC) frame and base. EganINK bespoke graphics are available.
