Soaring Whiteboard Plane

Egan invented the monolithic Presentation Board™ category, and the new Egan Dimension Stratus™ is an all-new take on what vanishing-edge whiteboards can be. We started with our market-leading innovation, Dimension Stele. Then our design team took its monolithic design and had its outside edges raked back towards the wall in a 15 degree chamfer (Hence the name Stratus, from the latin “Histriatus”, or ‘chamfered’) results in a soaring plane that seems to levitate off the wall. Installed, the result is, simply put, a visually stunning presentation canvas unlike any other.

Dimension Stratus features the award-winning proprietary EVS™ surface, is guaranteed-to-clean, low glare, and is magnet-compatible.

Environmentally responsible through design, quality, value, and timeliness: Egan has been certified to have established and maintained a Quality Management System and Environmental Management System, which are registered to the ISO 9001:2008 and ISO 14001:2004 standards. Designed and manufactured in North America by Egan Visual Inc., leaders in visual communication products for the contract furniture industry for over 40 years. You can count on Egan products to be well-designed and well-built for years of hassle-free enjoyment.
