Egan Presentation Boards

**Boxcore™ Tackboard**

Dimension Tack Boxcore™ features a 3/8” (9mm) deep tackable panel mounted proud on the board, for high holding power. It is designed to complement other Boxcore technology-based Egan presentation boards.

Dimension Tack Boxcore is constructed using Egan Boxcore technology which brings crisp edge definition, permits portrait or landscape orientation in the field, and provides more robust edges for excellent board quality and durability. The Boxcore frame sits flush against the wall and features a low profile when viewed from the front, thanks to its ultra-thin bezel. Frame can be specified 3/4” (19mm) or 1 1/8” (29mm) deep in standard Clear Anodized (CA). Available in EganFabric, EcoTack™, Maharam, or Customer’s Own Material.
