

Introduction to

# EganAero Hover

EGAN

## High Performance, Frameless Glass Markerboards

EganAero™ is the world's best-performing glass markerboard, and in this configuration appears to "hover" off the wall for a unique aesthetic appearance. EganAero is, simply put, the world's thinnest, lightest, toughest, clearest glass markerboard. Along with its pristine surface and stunning, sleek profile, EganAero brings functional benefits not found in any other markerboard. Writing on EganAero is a joyful exercise in precision, and yields crisp, clear legible results thanks to the absence of drop shadow clutter and parallax problems associated with conventional glass boards.

EganAero Hover features glass thinness of 1mm, with an installed standoff profile from the wall of only 5/16" (8.5mm), frameless, with increased magnet-holding capability as compared to EganAero (flush mount). EganAero Hover can be specified in either Landscape or Portrait orientation. The product mounts with dual wall cleats (included).

Egan NeoMagnet, standard magnet and EganINK™ compatible.

Egan NeoMagnet compatible

Environmentally responsible through design, quality, value, and timeliness: Egan has been certified to have established and maintained a Quality Management System and Environmental Management System, which are registered to the ISO 9001:2008 and ISO 14001:2004 standards. Designed and manufactured in North America by Egan Visual Inc., leaders in visual communication products for the contract furniture industry for over 40 years. You can count on Egan products to be well-designed and well-built for years of hassle-free enjoyment.
