

EganAero™

EganAero™ is the world's best glass markerboard. EganAero is, simply put, the world's thinnest, lightest, toughest, clearest glass markerboard. Along with its pristine surface and stunning, sleek profile (with a wall standoff roughly the thickness of a coin), EganAero brings functional benefits not found in any other markerboard. Writing on conventional glass results in messy, shadow-strewn outcomes. Writing on EganAero is a joyful exercise in precision, and yields crisp, clear legible results. EganAero is also easy to install, easy to move, and easy to uninstall.

EganAero features glass thinness of 1mm, with an installed standoff profile from the wall of only 2mm (0.085”), including installation magnet.
