# EganMosaic™

EGAN

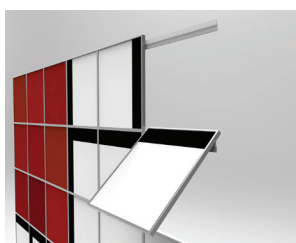

## An aid to collaboration

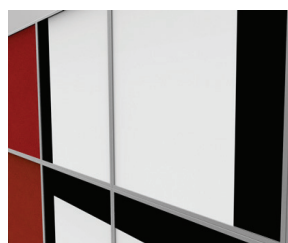

EganMosaic™ brings you the high design flexibility of individual tesserae coming together as a user-reconfigurable collaboration wall. The designer specifies a tile combination with dry erase space, tackable surface, bespoke graphics, and more, configured into a mosaic of workspaces, signage, wayfinding, note posting, whiteboard ideation, and even sound absorption. The end user enjoys the visual appeal of the Mosaic as designed, utilizes the functionality of the tesserae in their own way, and can take tiles away, use them, and reassemble Mosaic for impromptu collaboration.

Mosaic is one of the most powerful, visually versatile and appealing surfaces available. Configure a wall-size crosswork puzzle using black Etex panel and EVS™. Checkerboard. Image murals. 16" x 16" and 16" x 32" tiles can be oriented landscape or portrait, and moved easily. Justified or staggered columns and rows of varying or uniform length, for infinite reconfiguration. Cover a wall. Run 50 tiles in a row down a hall. Put a single column in a small office. Mosaic can be approached as a wallcovering with a flexible visual appeal and specified functionality - even as more tiles are added later.
