

EganMosaic™

EganMosaic™ brings you the high design flexibility of individual tesserae coming together as a user reconfigurable collaboration wall. EganMosaic is one of the most powerful, visually versatile and appealing surfaces available. The designer specifies a bespoke tile combination with dry erase space, tackable surface, magnet, custom graphics, and more, configured into a mosaic of workspaces, signage, wayfinding, note posting, whiteboard ideation, and even sound absorption.

16" x 16" and 16" x 32" tiles can be oriented landscape or portrait, and moved easily. Justified or staggered columns and rows of varying or uniform length, for infinite reconfiguration.
