

GlassWrite™ Cabinet

Based on the 202 VersaCabinet (CE2) body, GlassWrite™ Cabinet doors feature low-iron 5/32" (4mm) thick tempered safety glass (PPG Starphire® and Pilkington OptiWhite®) bonded to steel door infills for high optical clarity, and reduced tint.

Choose from single or double door cabinet models, which feature EVS dry-erase, guaranteed-to-clean surface on the interior of the cabinet (both body and rear of door). Optional accessories, which include Egan NeoMagnet (ACEAMAG) and Egan Tack Panels (TP) are sold separately.
