

Introduction to

GlassWrite™ PowerPlane® Table

Clear with wood veneer substrate

Back-painted white with optional custom aperture for power module

The height adjustable PowerPlane® Table makes a grand return to the Egan Visual lineup, and for the first time with an all glass surface. Available in two distinct styles, the Egan GlassWrite™ PowerPlane Table excels on both form and function. The GlassWrite surface features low-iron tempered safety glass (PPG Starphire®) for high optical clarity, and reduced tint. Specify almost any color or choose clear and specify a sub-glass plane in any of a number of wood veneers. To adjust the height, simply tilt the switch (two on every table for easy accessibility) or use the free Bluetooth® app.

THE REMARKABLE ABILITIES OF THE POWERPLANE®

1. A powered height-adjustable table with a modern and elegant Egan GlassWrite surface. Dry erase compatible.
2. Two distinct styles: clear with an Etex backing, or Wood Veneer under clear glass.
3. Height adjustment via the switches or the free Bluetooth® app, which also offers additional features such as a sit/stand reminder.
4. Plug in your GlassWrite PowerPlane Table to the wall or use the optional battery pack and move your table anywhere in the room.

FEATURES

Surface Size

In standard or custom, build your surface to widths of: 48", 60", 72", 96" and depths of: 42" and 48."

Surface Height

Control height adjustment from 25" to 50", quietly at ~1" per second. Available in plug-in or battery pack.

Surface Shape

Choose from standard: Rectilinear or a variety of optional shapes: Convex, Race or Boat or Custom.

Surface Color

Available in 'Clear over Veneer', or choose from almost any standard or custom color. EganINK™ compatible for a truly unique table surface.

Switches

Two intuitive lift/lower switches allow you to easily and accessibly adjust the height to your liking.

Bluetooth® Compatible App

Adjust the height of your table via the free Bluetooth® app, which also offers additional features (iOS and Android compatible).
