An Egan Open Office Enhancement

Egan Mezzanine instantly brings increased real estate, provides organization space and divides space in a way that permits collaboration, all in one non-permanent installation. Your existing open office desks and tables are enhanced to the designer's specification, with a broad range of customizations. The basic Mezzanine structure is available in a 3-post or 4-post configuration, each in two standard depths. Standardization ends there.

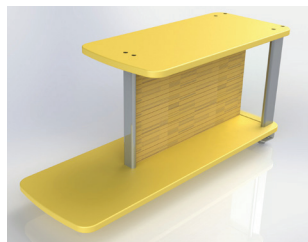

Mezzanine 4-post remains an 'open divider' for binders, books, or accessories. The 3-post may be configured with a space divider infill, separating work areas with either side being Magnetic-compatible EVS, or Tackable fabric.

Finally, either model may be specified in a range of standard and custom colors, and specified with a back panel in EVS, Tackable fabric, frosted glass, or Etex finish. The second tier may consider a variety of options including pen, binder, and cup holders. Egan Mezzanine installs without tools, and enhances the open office with a new look and utility.

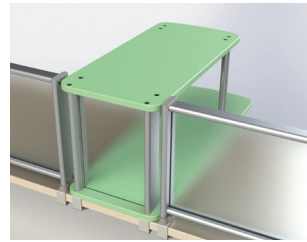

- Pen Groove
- Cut-outs
- Lamp Mount
- Custom Response
