

Introduction to

Presentation Board Boxcore™

EGAN

Crisp edge definition with ultra-thin bezel

3/4" deep Clear Anodized Aluminum frame

The Modern Markerboard

Like our Aluminum Frame markerboard series, Egan Presentation Board Boxcore features a guaranteed-to-clean EVS surface bonded to steel, making it a professional grade dry-erase, magnet-compatible, projection-compatible, low-gloss presentation markerboard. Egan Boxcore technology provides robust edges and clean contemporary aesthetics. The Boxcore frame is clear anodized aluminum and sits flush against the wall, with the presentation surface 3/4" (19mm) proud from the wall. The distinct frame features a low profile when viewed from the front, thanks to its ultra-thin bezel.

Integrated wallmounts mean the board can be mounted in a landscape or portrait orientation, switching between them easily. Additionally, the back frame edge sits flush against the wall, concealing the mount.

EganINK™ compatible - customize your board for improved branding with bespoke graphics, signage, and more!

Environmentally responsible through design, quality, value, and timeliness: Egan has been certified to have established and maintained a Quality Management System and Environmental Management System, which are registered to the ISO 9001:2008 and ISO 14001:2004 standards. Designed and manufactured in North America by Egan Visual Inc., leaders in visual communication products for the contract furniture industry for over 40 years. You can count on Egan products to be well-designed and well-built for years of hassle-free enjoyment.
