

Introduction to

VersaCabinet Boxcore

EGAN

Ultra-thin Boxcore door bezel

EVS on body infill and back-of-door infills for dry-erase, magnet, and projection compatibility

Modern Presentation Cabinets with Functional Door Fronts

VersaCabinet Boxcore begins with the popular VersaCabinet body and then offers increased functionality and a modern design aesthetic with new front-of-cabinet surface options for additional work space, tacked notes, or even custom graphics. Based on the 202 VersaCabinet (CE2) body, with all the usual cabinet infill options for the body. Door front infill can be specified in EVS (magnet-compatible), Décor Panel or tackable fabric panel. The back of the door shows Boxcore frame, and features an EVS dry-erase writing surface, guaranteed-to-clean, magnet and projection compatible.

Egan Boxcore™ technology brings crisp edge definition and durability, emphasizing the cabinet's clean lines and modern appearance.

Accessories which include Egan NeoMagnet, magnetic marker trays or cloth holders, and Tack Panels (fabric or EcoTack) are sold separately.

Environmentally responsible through design, quality, value, and timeliness: Egan has been certified to have established and maintained a Quality Management System and Environmental Management System, which are registered to the ISO 9001:2008 and ISO 14001:2004 standards. Designed and manufactured in North America by Egan Visual Inc., leaders in visual communication products for the contract furniture industry for over 40 years. You can count on Egan products to be well-designed and well-built for years of hassle-free enjoyment.
