# Egan VersaPRO

## Turn walls into dual purpose, dry-erase and projection surfaces

Egan VersaPRO™ is a high performance dry-erase surface designed to create a professional quality communication feature to your demanding specifications. The VersaPRO provides great projection and dry-erase capabilities that are guaranteed-to-clean, and is available as self-adhesive or Customer's Own Glue (COG) prepared..

VersaPRO is available in seamless rolls 54" or 48" high up to 200' long and factory cut sheets 54" or 48" high by 120" long.

Yes! We can add EganINK™ to make your unique project even more meaningful—see page 6

This wall-to-wall installation of VersaPRO has been framed with customer's own solid maple presentation rail/pentray.

**VP54:** cut to length from roll

VersaPRO has been framed with the EganSystem Frame option to provide access to a wide array of visual communication tools including flipcharts, tackboards and double sided trackmount whiteboards.

**VP12054:** with EWHEM and Presentation rail/pentray

VersaCaddy

## Resurface with VersaPRO

Resurfacing existing chalkboards or other surfaces is easy with VersaPRO self-adhesive surface. For large installation the VersaCaddy helps support the weight of the product. Unlike vinyl products VersaPRO has substantial thickness to provide a superior surface finish.

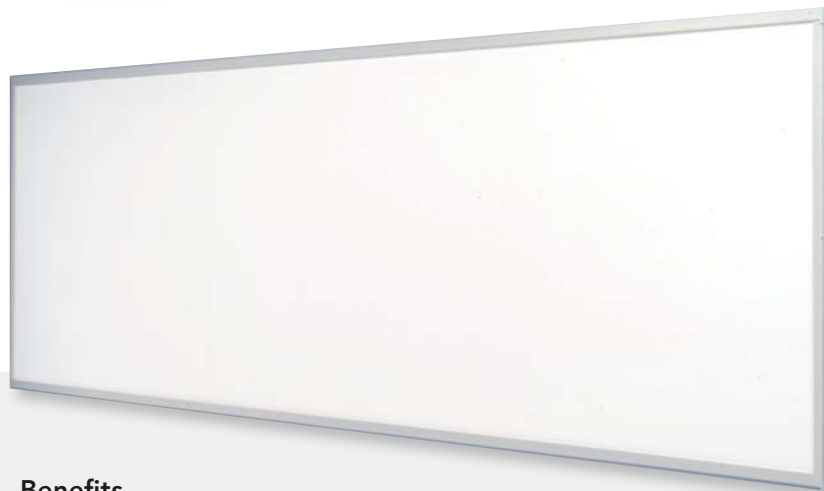

### Delivered on a roll

VersaPRO installs easily when the wall is prepared as directed. For best results please consult a factory approved installer and review instructions carefully.

## EganSystem—More presentation spaces

When VersaPRO frame option is specified, additional EganSystem markerboards and tackboards can be added to enhance your presentation solution. See facing page VP12054

### Features

- > Large format installations
- > Exceptional quality self-adhesive whiteboard surface
- > Next generation material
- > Combines projection and dry erase capabilities
- > Factory stocked
- > Rolls 54" or 48" high—up to 200' long
- > Sheets 54" or 48" high—120" long

- > Refinish old chalkboards without renovation or demolition/landfill
- > Install and use in same day
- > Ideal for:
  - Meeting rooms
  - Training rooms
  - Classrooms
- > May be framed with EganSystem™ Track
- > Installation opportunities for corporate facilities and design projects

**Guaranteed-to-clean**

# Egan VersaJOT

## Dry erase, anywhere, any shape

Egan VersaJOT™ is a self-adhesive product designed for quick and easy installation on most hard, flat surfaces. Every order of VersaJOT is custom cut from Egan VersaSurface to your precise specification. Egan Visual accepts Customer's Own Art patterns (COA) so you can shape your VersaJOT to all sorts of existing installations including file drawers, hutches, doors, partitions and a lot more. Add a knock-out feature for door handles and locks to complete your custom solution.

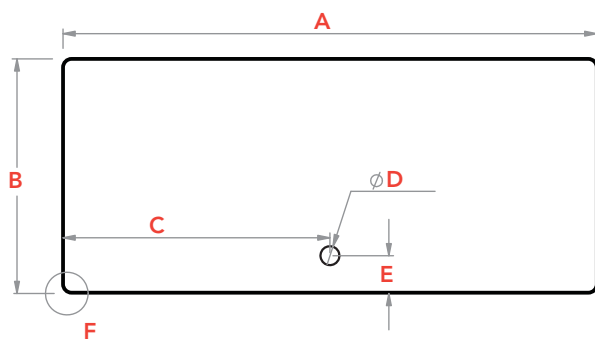

VersaJOT self-adhesive presentation surface is available in sizes up to 52" x 84" based on your custom shape pattern cut from material on a square footage basis.

Add EganINK to personalize your project:

This installation of VersaJOT features a rounded corner and lock cut-out installed on over 500 overhead bins. VersaJOT cut to specification from client supplied AutoCAD file.

VJ6

- A. Width
- B. Height
- C. Knock-out Inset Horizontal
- D. Knock-out Diameter
- E. Knock-out Inset Vertical
- F. Corner Radius

VersaJOT may accept magnetic accessories when installed on a metal surface.

VJ4

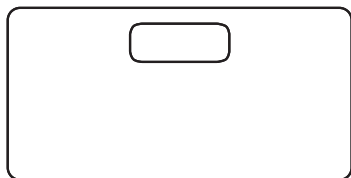

Custom Response

### Custom Response Exclusive

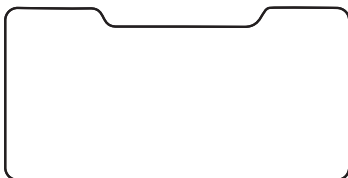

VersaJOT is a unique example of an Egan Custom Response solution. All orders of VersaJOT are measured to client specification and ship on normal lead times.

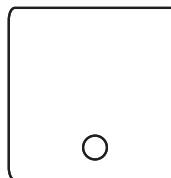

VersaJOT low adhesive is ideal for installation on glass

#### Benefits

- > Knock-out shapes for door handles and more
- > Custom fit to enhance existing surfaces
- > Easy installation on most hard surfaces
- > Low profile installation does not increase thickness or weight
- > Install and use right away
- > Consistently clean, modern, fresh appearance

Guaranteed-to-clean

# What is EganINK?

## Durable letters, lines, graphics

EganINK is another whiteboard innovation developed by Egan Visual to create colorful grids, templates and lettering to your specification. Exclusive to Egan VersaSurface Presentation Products—EganINK gives you the flexibility to make whiteboard concepts that really communicate your message, sponsor your brand, or coach your team.

This innovative ink system provides high resolution multi-color application of letters/lines/graphics. Egan will appropriately reproduce your suitable high resolution image for maximum dry-erase utility on any Egan VersaSurface product including Markerboards, Presentation Cabinets, Mobile Stands, VersaPRO\* and custom cut VersaJOT.

VersaJOT and EganINK combine to create custom shapes with custom artwork for a limitless opportunity to communicate your concepts and solutions.

Egan VersaSurfaces and EganINK will not be damaged by normal dry-erase or permanent marker use and are guaranteed-to-clean.

\*Egan VersaPRO is offered in rolls up to 200' in length. Continuous patterns and grids over 80" in length may have design restrictions. Please contact Customer Service for details.

  - Offices
  - Hospitals
  - Institutions

Egan VersaSurfaces up to 54" x 108" may be created with your high resolution graphics or Customers Own Art (COA). COA and patterns may be submitted in various digital formats. Please contact Customer Service for more information.

## EganINK available on GlassWrite

Egan Mobiles are available with tempered GlassWrite™ panels suitable for shared or two sided annotations. An excellent solution for circuit designs. Transparent colors (GlassWrite only) and custom grids are available.

Dry-erasable, translucent privacy. Whether a functional grid or diagram is needed or just a splash of color, Egan GlassWrite delivers with flair. Light transmits through the mobile panel creating privacy or intimacy while preserving a natural atmosphere. The translucent quality of Egan GlassWrite can make objects more than a foot away indistinguishable, yet leave the applied graphics looking brilliant.

# Egan VersaSurface Presentation Products

## Dry-erase and projection all in one

Egan Versa Presentation Surfaces incorporate EVS™—a combination of a guaranteed-to-clean dry-erase surface and an excellent matte white surface for projection—with special adhesives and stability forming backers. The surfaces are applied on most flat surfaces to create contemporary solutions for meeting, training and brainstorming.

- ✓ Guaranteed-to-clean
- ✓ Dust-free Whiteboarding
- ✓ Not damaged by permanent marker
- ✓ Self-stick adhesive (Most hard, smooth surfaces)
- ✓ Custom shapes and sizes with VersaJOT
- ✓ Durable letters, lines, graphics with EganINK
- ✓ EganINK—Full color and high resolution
- ✓ 10-year surface warranty

## Award Winning Heritage

### Egan VersaSurface™—A history of innovation

Egan's determination to create useful and innovative products for office environments is clearly resulting in great successes with awards earned over the years. Most of Egan's products have the industry's best technology for generating, capturing and presenting ideas. That technology is the Egan VersaSurface™ presentation surface.

Egan VersaSurface is a dry-erase surface with a matte finish, perfectly suited for projection and is guaranteed-to-clean. Egan VersaSurface technology is lightweight and has superior projection screen qualities. It has no hot spots or glare, which makes it more appropriate than porcelain in most cases.

Dry-erase Markers

+

EganCloth

=

**Dust-free  
Dry-erase**

### A unique surface for generating, capturing and presenting ideas.

A patent pending technology that features a non-permeable optical coating, **Egan VersaSurface** is fused to an opaque white polyester support base to provide dimensional stability. The resulting laminate is manufactured into several formats to meet various customer requirements. **EganINK** option provides durable letters, lines and graphics that can be customized to suit any specification.

### Take the VersaSurface Test-Drive

1. Write on the VersaSurface with a dry-erase marker.
2. Wait a minute, then erase. Use the amazing EganCloth for the best results—It eliminates ghosting and dry-erase dust.
3. If you used a permanent marker by mistake, grab a dry-erase marker and use it to scribble directly over the permanent marking, then just wipe it clean.
4. Egan VersaSurface features a low-gloss surface that is ideal for projection.

**10-Year  
Warranty  
on writing surface**  
Permanent marker does not  
damage Egan VersaSurface

**Environmentally responsible design, quality, cost and timeliness.** Egan Visual has been certified to have established, documented, implemented and maintain a Quality Management System as well as an Environmental Management System, which are registered to the ISO9001:2008 and ISO14001:2004 standards.
