

Introduction to

EganAero Boxcore

EGAN

Ultra-thin Boxcore frame

Egan NeoMagnet compatible

Pristine Glass Markerboards with Ultra-Thin Bezel Frame

EganAero™ is the world's best-performing glass markerboard; the world's thinnest, lightest, toughest, clearest. Along with its pristine surface and stunning, sleek profile, EganAero brings functional benefits not found in any other markerboard. Writing on EganAero is a joyful exercise in precision, and yields crisp, clear legible results thanks to the absence of drop shadow clutter and parallax problems associated with conventional glass boards.

EganAero Boxcore features glass thinness of 1mm installed in a 3/4" (19mm) deep frame that sits flush on the wall, increased magnet-holding capability, and an ultra-thin bezel.

EganAero Boxcore is constructed using Egan Boxcore™ technology which provides a rigid frame and permits portrait or landscape orientation in the field. Clear anodized frame, custom color available. Egan NeoMagnet, standard magnet and EganINK™ compatible.

Environmentally responsible through design, quality, value, and timeliness: Egan has been certified to have established and maintained a Quality Management System and Environmental Management System, which are registered to the ISO 9001:2008 and ISO 14001:2004 standards. Designed and manufactured in North America by Egan Visual Inc., leaders in visual communication products for the contract furniture industry for over 40 years. You can count on Egan products to be well-designed and well-built for years of hassle-free enjoyment.
