## Dimension Hover: The Evolution of The Glass Board

Egan's new Dimension Hover is a new and improved alternative to the glass board. Dimension Hover is constructed with Egan's proprietary EVS whiteboard surface.

In addition to its better performance value, Dimension Hover is a significantly more affordable alternative to glass. When considering glass, consider Dimension Hover.

# A Frameless Magnetic Whiteboard: The World's Premier Whiteboard Canvas

Built with Egan's dry-surface, EVS. EVS is Egan's proprietary whiteboard surface that outperforms porcelain and glass boards. Here's why:

1. **Guaranteed-to-Clean:** EVS can handle tough environments, and can even remove permanent markers, which is why we provide a **10-year warranty on EVS!**
2. **Matte Finish & Low Gloss:** The soft, white matte surface reduces glare and reflection from ambient light. This makes it ideal for projection and a better viewing experience from all angles, which allows for greater viewing equality.

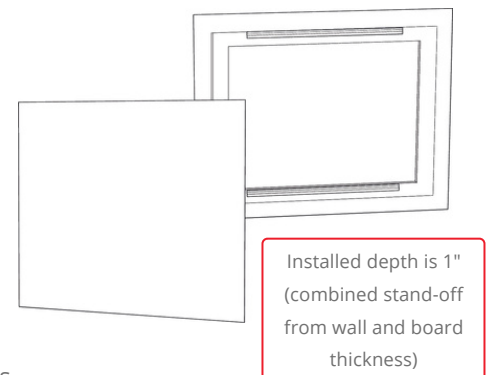

## Standard Sizes: Board Height & Width

				82x51		
48x48	60x48	72x48	77x48		96x48	120x48
48x36						

## Environmental Information

- GreenGuard Gold Certificated
- PW Precautionary List
- LBC Red List approved
- Compile with LEEDv4 standards
- Pre-Consumer Recycled Content
- Post-Consumer Waste Material

## Hover Installation

## Options:

**PRINT WITH EGANINK:** Option to print logos, high-resolution images, artwork, or templates.

**CUSTOM SIZE:** Tailor the Dimension Hover to any size to meet the specific requirements of your workspace.

**PERSONALIZED WITH COLORED EDGE:** Choose from over 1,000 standard colors from our Infinite Palette, or our custom color match program.
