BOXCORE

INDUSTRIAL DESIGN MADE SLEEK

In 2015, we revolutionized markerboard construction with our Boxcore technology. Borrowing from the unibody design of modern automobiles, all components are integrated and bonded to contribute to high strength, stiffness, and a modern, ultra-thin bezel. This provides a sleek, minimalist profile for your modern space.

Designed and crafted using the highest-quality materials, our presentation boards Egan Boxcore technology provides robust edges and sharp, clean contemporary aesthetics. Boards come in either 29mm or 19mm frame depths, and when you build your board with Egan, we have the surface to suit any professional environment's specifications: dry-erase EVS, glass, tackable fabric, or EcoTack. Boxcore comes in three distinct formats: presentation board, mobile, and TableScreen.

Key Features:

- 29mm or 19mm clear anodized aluminum frames
- Fool proof stability
- Presentation board, mobile, or TableScreen format
- Infilled with either EVS, glass, or tackable substrate (Fabric or EcoTack).
- Guaranteed-to-clean with EVS & GlassWrite
- Projection compatible with EVS
- Magnet-compatible options
- Cleat Mounted
- Custom Size
- Custom painted frames
- EganINK compatible with EVS and GlassWrite

Boxcore Board | EVS Infill | 96" w x 48" h | Custom Painted Frame

TableScreen | maharam Tackable fabric Manner, Hush Infill | 48" w x 18" h | Edge Mount | Custom Painted Frame

Boxcore Mobile | Glass & maharam Tackable fabric Manner, Hush Infill | 36" w x 72" h | Custom Painted Frame

BOXCORE BOARD

Egan Boxcore provides sturdy, robust edges and clean contemporary aesthetics. Boards come in either 1 1/8" (29mm) or 3/4" (19mm) frame depths. When selecting a fabric for tackboards, choose from a library of hundreds of fabrics each with distinct unique patterns and ranging from vibrant brights to rich neutrals and earth tones. Egan also has a COM program, Customer's Own Material, in which we will test your fabrics so you can use the unique textile design and color that fits your space.

**BOXCORE EganINK**

When selecting an EVS or glass infill, you can also print your board with EganINK. EganINK is an innovative ink system that provides high resolution multi-color print application. Bold or understated, EganINK helps complement and sets the mood, whatever your mood may be, of your space – photography, graphics, KPI templates, care boards, logos, wayfinding, signage, or high-resolution art.

MOUNTING

Boxcore 19 & 29 is constructed using Egan Boxcore technology, which is a sturdy, clear anodized aluminum frame infilled with your choice of surface. Choose between a 3/4" (19mm) or 1 1/8" (29mm) deep frame. Both frames sit flush against the wall, and have a low profile when viewed from the front. Integrated wallmounts mean the board can be mounted in a landscape or portrait orientation. Frames can be specified in standard Clear Anodized (CA), or White (WH), Black (BL) and custom color frame is also available.

BOXCORE MOBILE

Brainstorm sessions on the go! The Boxcore Mobile utilizes the unique Egan Boxcore design for a high degree of stability when moving and when writing. A 1 1/8" (29mm) aluminum frame depth, select between EVS, glass, tackable fabric, or EcoTack. The Boxcore Mobile has a unique frame to base connection, for clean uninterrupted lines, which can link together multiple Boxcore Mobiles with only a 1/4" gap between mobiles.

BOXCORE MOBILE

The Boxcore Mobile has a unique frame to base connection that provides additional functionality by linking together multiple Boxcore Mobiles on a linear plane with only a 1/4 gap between mobiles. Designed for a dual purpose, Boxcore mobiles can be linked together to create a more productive environment where teammates can share ideas and collaborate, or can be used to divide space and create barriers in open concept offices creating a sense of privacy.

BASE OPTIONS

The Boxcore Mobile utilizes the Boxcore design for a high degree of stability when moving and when writing. It is distinguished by an ultra- thin bezel, and aluminum frame in 1 1/8" (29mm) depth. With the unique frame design, you can mix and match different infills to design a board suited to your exact specifications and working needs (if specifying GlassWrite, both sides must be GlassWrite for even weight distribution). To extend your work surface, the unique frame to base connection can link together multiple Boxcore Mobiles with only a 1/4" gap.

**BOXCORE
TABLESCREEN**

Boxcore 29 presentation board is available as a versatile, demountable office enhancement in the form of the Boxcore 29 TableScreen, a 1 1/8" (29mm) clear anodized aluminum frame. These TableScreens come with the four Boxcore infill options, and have a variety of table-agnostic mounting configurations to choose from. All products are available in an array of standard and custom heights, lengths, and frame colors.

**BOXCORE
TABLESCREEN**

Boxcore TableScreens provide a sense of privacy through space division in open concept environments. When selecting guaranteed-to-clean GlassWrite infill, you may specify from over 1000 colors using the Egan color palette at standard costs, or you can select other industry standard fandecks, such as Pantone. High-resolution printing (photogrpahy, graphics, templates, etc.) is also available when selecting a glass or EVS infill.

**BOXCORE
STANDING RIGGING**

Spark ideas through creative space division with Standing Rigging. A professional grade, productivity starting wall canvas designed to bolster employees' thought and ideation while providing a sense of privacy. Standing Rigging can bring high functionality and modern design esthetic to almost any space, and when using Boxcore 29 - mix and match different infills to create a double-sided board (if specifying GlassWrite, both sides must be GlassWrite for even weight distribution).

**BOXCORE
STANDING RIGGING**

An architectural-grade installation, Standing Rigging is constructed with a tension wire drilled into Boxcore 29 presentation boards. Standing Rigging suspends boards to create walls and space division while facilitating the sharing of ideas. Install Boxcore 29 in any open space, at any height – all you need is floor and ceiling anchor points. The finished installation features the board suspended in midair on a tensioned wire rope.
