- Etex and wood veneer finish options available for Disperse
- A library of standard and Grade A fabrics to choose from
- Customer's Own Material
- Custom Size

# ACOUSTICAL WALL PANELS

Egan Visual builds high-quality acoustical wall panels for superior reverberation reduction and sound insulation. Series 3 panels are an ideal solution to effectively reducing dB levels in a room. These panels have an NRC rating of .85 (1") and 1.05 (2"). Wall panels are designed to control echo and sound bounce within a room along with keeping sound contained, and blocking it from escaping or entering another room.

# ACOUSTICAL WALL PANELS

Better acoustics is linked to better performance and productivity. Background noise in the workplace is a constant distraction that employees must contend with daily, which results in incrementally lost time.

#### DECORATIVE TACK

A dual function product, post information while reducing noise at the same time. Decorative Tack can be used for various applications, such as bulletin boards, tack wings for presentation boards, or display walls. Available in 1/2" thickness with an NRC rating of .35 and STC rating of 25, Decorative Tack can also be used as attractive, visual installations that add color and texture to a room. Choose from a library of fabrics ranging from vibrant brights to rich neutral and earth tones.
