V-Series Mobile

Boxcore Mobile | GlassWrite Infill | 48"w x 54"h

## BOXCORE

Perfect for modern spaces, the Boxcore Mobile is characterized by a thin, clear anodized aluminum frame. The frame design provides a high degree of stability when moving and writing on the board. The design also seamlessly integrates the frame and the base together, creating smooth, clean, uninterrupted lines. This new design also allows for a tighter linking connection with only a 1/8" gap in between linked Boxcore Mobiles. Specify from multiple infill options: EVS, GlassWrite, Fabric and EcoTack.

## BASE OPTIONS

The Boxcore Mobile utilizes the Boxcore design for a high degree of stability when moving and when writing. It is distinguished by an ultra- thin bezel, and aluminum frame in 1 1/8" (29mm) depth. With the unique frame design, you can mix and match different infills to design a board suited to your exact specifications and working needs (if specifying GlassWrite, both sides must be GlassWrite for even weight distribution). To extend your work surface, the unique frame to base connection can link together multiple Boxcore Mobiles with only a 1/4" gap.

## ARCHITRAVE

Elevate your mobile with Architrave, the Egan Oak Wood Frame design series, available in 4 stain finishes. Distinguished by a sturdy 1 1/8” wood oak frame, the Architrave Mobile offers the same wide range of infill options: EVS, GlassWrite, Fabric and EcoTack. With Egan mobiles, you can specify two different infills to enhance the utility of your mobile (if specifying Glasswrite, both sides must be glass for an even weight distribution).

V-Series Mobile | Clear GlassWrite Infill | 48"w x 66"h

## V-SERIES

V-Series frame design is defined by robust, clear anodized aluminum frames that can be specified from a range of infill options: clear or frosted GlassWrite, EVS, or tackable materials, such as natural cork, or fabric. The Egan V-Series Mobiles are available in 3 and 4 point bases.

The 3 point base models are designed to work together with the standalone 4 point base V-Series to create linked partitions that can be positioned at almost any angle.

---

The A-Frame mobile is a high performing mobile that can be specified with EVS or tackable fabric on either side of the mobile. The integrated track on the top of the mobile accommodates lightweight VersaBoards or Egan System track boards for additional writing surface. The A-Frame cavity is designed to store additional boards, making it a useful tool for dynamic work sessions.
