

Architrave Mobile

Architrave products are defined by their sturdy, wood oak Boxcore 1 1/8" (29mm) frame. Features of the Architrave family consist of thin bezel edge of 1/4" (6mm), a robust construction with a clean external appearance and no extraneous materials. Specify your Architrave mobile from a range of infill options, such as EVS, GlassWrite, EganINK, Tackable fabric (EganFabric or maharam), or EcoTack.

Architrave Mobiles can be specified with a different infill per side. Pricing reflects costs for 1 side only. Choose an infill for each side and add the price together for the total cost. If the infill is the same for both sides, simply double the cost in the chart below.
