PRESENTATION BOARDS

The Aluminum Frame Markerboard is a classic. Our proprietary dry-erase surface, EVS, is a commercial grade surface that can withstand the toughest environments and is guaranteed-to-clean. With a magnetic backer infill, the Aluminum Frame markerboard is magnet compatible with a clear anodized aluminum frame, precision squared mitered corners and will never warp.

Dimension 13 is an elevated design on the traditional markerboard. Fully wrapped in EVS, Dimension Stele is a 1/2" (13mm) frameless board that beautifully blends into your environment; designed specifically for free flow thinking, with clean lines to keep the mind clear and free from distraction.

GlassWriteMAG is a backpainted white, frameless glass board. Egan uses high quality, tempered safety glass that has no tint and will not distort the color of your board. Cleat mounted and magnet compatible.

V-Series Mobile features EVS dry-erase surface on both sides that accepts magnetic accessories. The V-Series frame is defined by robust, clear anodized aluminum.
