

# Partition to Ceiling Enclosure

The Partition to Ceiling Enclosure is designed to extend an existing partition panel up to the ceiling. It is a 1/2" thin and has a **NRC rating of .80 on fiberglass side, and .35 on fiber board side.** Partition to Ceiling Enclosure also has a **STC rating of 25.**

If the enclosure does not need to go all the way to the ceiling, a special fabric covered top cap can be made. (This is not always possible, call factory for details.)
