

# VersaPRO® Wallcovering

**Egan Visual is not responsible for installation.**

**Customers Own Glue (COG)** installation is able to meet high expectation fit and finish when installed by a professional wallcovering specialist or qualified installer using customer's own wallcovering adhesive. The surface will be available for use after the installer supplied adhesive fully cures, typically 24 hours or as indicated by the adhesive manufacturer. This solution is recommended where the installation may be cut on site and or seamed for a wall to wall-floor to ceiling installation.

**VersaPRO installation surfaces require specific installation surface conditions be met.**

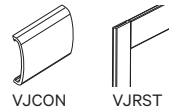

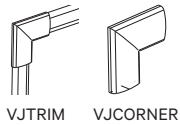

See installation instructions and videos online at [www.egan.com](http://www.egan.com). The manufacturer is not responsible for installation.

**VersaPRO (VP)**

Code	Description	Price	Price/ft - in addition to 10'

- EganSystem product line can be used on trimming solutions applied on VersaPRO installed in your environment. Egan System includes double-sided markerboards and tackboards as well as an array of presentation shelves and marker tray options to enhance your presentation environment. Installing EganSystem products on top of VersaPRO multiplies presentation real estate. Egan also encourages properly installed third party framing to match the existing décor
- 96" lengths EMST also available

**HOW TO ORDER**

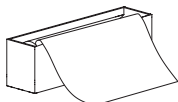

VersaPRO-G is the choice where high expectation fit and finish is required in a floor to ceiling/wall to wall installation (note: visible seams to be expected). And must be installed exactly in position, VersaPRO-G utilizes a customer supplied wet adhesive that provides workable drying time and fitting around details like electrical fixtures.

For wallcovering fit and finish and full wall to ceiling, VersaPRO-G is offered in rolls or sheets. All edges are straight cut (factory slitting is available, custom shape options are not available).

VersaPRO can be imprinted with EganINK on heights: 48" or 54" lengths: 10 feet - 400 feet.

**ACCESSORIES**

400' roll freely spools material from the crate. Front edge of crate has a protective edge to reduce abrasions to the material. Self skidded for easy movement with lift truck.

Code	Description	Dimension	Price/Ft.	Price/Roll
<b>VPC20054</b>	1/2 roll of VersaPRO	48"h or 54"h x 200'	\$ 63	\$12 600
