EGAN

Egan VersaCabinet

A classic product and a refreshing solution

Egan VersaCabinet™ is a complete revisit of the presentation cabinet that Egan Visual introduced over 40 years ago. Designed to handle modern applications and to meet the demands of the highest aesthetics, Egan VersaCabinet with Egan VersaSurface (EVS) for optimal dry-erase and projection features is the right solution for contemporary meeting rooms. Available in 48" w x 42" h, or 60" w x 48" h sizes—features include a flipchart with tearbar, a choice of clear aluminum or black anodized body with marker groove, tackable fabric panel with flipchart option, EganINK™ option and an EganCloth caddy.

Great for projection

Flipchart with tearbar

Black anodized body
Cherry Doors—Select from 8 veneer options

Rectilinear Etex color

Egan VersaCabinet (CE2A6048)

Clear anodized body
Etex Platinum—Select from 9 standard colors & custom color options

Egan Presentation Cabinets

Wood or Etex

Egan Presentation Cabinets set the stage with a strong, dynamic design focal point. At a mere 3" deep when closed, Egan Cabinets easily mount on the wall with a simple cleat. The interior doors feature one flipchart and one tackable fabric panel on the inside doors. You may choose Egan VersaSurface or EganBoard porcelain writing surface—pull-down projection screen is standard on porcelain models (unlike Egan VersaSurface, porcelain's gloss is not suitable for projection). Options include second flipchart, cabinet door locks, (on all models) pull-down projection screen and EganINK™ (on VersaSurface models only).

8 select veneers
9 Etex colors

Pull-down projection screen:
Optional on Egan VersaSurface,
Standard on EganBoard Porcelain

your design

Etex Cabinets (CEXB48)

Features include Etex polymer coating, a solid catalyzed finish with a slight texture that hides fingerprints. Etex is attractive, durable and easily maintained.

Wood Cabinets (CABW48)

Features include hand selected, solid hardwoods and veneers in the species of your choice. Book matched face veneers reveal the woods natural characteristics.

Finish Options

VersaCabinet doors may be specified with wood veneer or Etex color

Wood Veneer Finishes

Etex Finishes

*Egan VersaCabinet doors only

Available custom colors, fabrics and graphics

EGAN Versa SURFACES

A unique surface for generating, capturing and presenting ideas.

A patent pending technology that features a non-permeable optical coating, Egan VersaSurface is fused to an opaque white polyester support base to provide dimensional stability. The resulting laminate is manufactured into several formats to meet various customer requirements. EganINK option provides durable letters, lines and graphics that can be customized to suit any specification.

Take the VersaSurface Test-Drive

1. Write on the VersaSurface with a dry-erase marker.
2. Wait a minute, then erase. Use the amazing EganCloth for the best results—It eliminates ghosting and dry-erase dust.
3. If you used a permanent marker by mistake, grab a dry-erase marker and use it to scribble directly over the permanent marking, then just wipe it clean.
4. Egan VersaSurface features a low-gloss surface that is ideal for projection.

Environmentally responsible design, quality, cost and timeliness. Egan Visual has been certified to have established, documented, implemented and maintains a Quality Management System as well as an Environmental Management System, which are registered to the ISO9001:2008 and ISO14001:2004 standards.
